‘data processor’ means an individual or organisation which processes personal data on behalf of the data controller;

‘personal data’* means any information relating to an individual who can be identified, such as by a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

* For the purposes of this policy we use the term ‘personal data’ to include ‘sensitive personal data’ except where we specifically need to refer to sensitive personal data.

‘Supervisory authority’ means an independent public authority which is responsible for monitoring the application of data protection. In the UK the supervisory authority is [the Information Commissioner’s Office](#) (ICO).

1. The data protection principles

The Data Protection Laws require WFPS acting as either data controller or data processor to process data in accordance with the principles of data protection. These require that personal data is:

1. Processed lawfully, fairly and in a transparent manner;
2. Collected for specified and legitimate purposes and not further processed in a manner that is incompatible with those purposes;
3. Adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed;
4. Accurate and kept up to date; every reasonable step must be taken to ensure that personal data that are inaccurate, having regard to the purposes for which they are processed, are erased or rectified without delay;
5. Kept for no longer than is necessary for the purposes for which the personal data are processed;
6. Processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures; and that
7. The data controller shall be responsible for, and be able to demonstrate, compliance with the principles.

2. Legal bases for processing

WFPS will only process personal data where it has a legal basis for doing so (see Annex A). Where WFPS does not have a legal reason for processing personal data any processing will be a breach of the Data Protection Laws.

WFPS will review the personal data it holds on a regular basis to ensure it is being lawfully processed and it is accurate, relevant and up to date and those people listed in the Appendix shall be responsible for doing this.

Before transferring personal data to any third party (such as past, current or prospective employers, suppliers, customers and clients, intermediaries such as, third party employers, umbrella companies, persons making an enquiry or complaint and any other third party (such as software solutions providers and back office support)), WFPS will establish that it has a legal reason for making the transfer.

3. Privacy by design and by default

WFPS has implemented measures and procedures that adequately protect the privacy of individuals and ensures that data protection is integral to all processing activities. This includes implementing measures such as:

- data minimisation (i.e. not keeping data for longer than is necessary);
- pseudonymisation;
- anonymization; and
- cyber security.

WFPS shall provide any information relating to data processing to an individual in a concise, transparent, intelligible and easily accessible form, using clear and plain language. The information shall be provided in writing, or by other means, including, where appropriate, by electronic means. WFPS may provide this information orally if requested to do so by the individual.

4. Privacy notices

Where WFPS collects personal data from the individual, WFPS will give the individual a privacy notice at the time when it first obtains the personal data.

Where WFPS collects personal data other than from the individual directly, it will give the individual a privacy notice within a reasonable period after obtaining the personal data, but at the latest within one month. If WFPS intends to disclose the personal data to a third party then the privacy notice will be issued when the personal data are first disclosed (if not issued sooner).

Where WFPS intends to further process the personal data for a purpose other than that for which the data was initially collected, WFPS will give the individual information on that other purpose and any relevant further information before it does the further processing.

5. Subject access requests

The individual is entitled to access their personal data on request from the data controller.

6. Rectification

The individual or another data controller at the individual's request, has the right to ask WFPS to rectify any inaccurate or incomplete personal data concerning an individual.

If WFPS has given the personal data to any third parties it will tell those third parties that it has received a request to rectify the personal data unless this proves impossible or involves disproportionate effort. Those third parties should also rectify the personal data they hold - however WFPS will not be in a position to audit those third parties to ensure that the rectification has occurred.

7. Erasure

The individual or another data controller at the individual's request, has the right to ask WFPS to erase an individual's personal data.

If WFPS receives a request to erase it will ask the individual if s/he wants his personal data to be removed entirely or whether s/he is happy for his or her details to be kept on a list of individuals who do not want to be contacted in the future (for a specified period or otherwise). WFPS cannot keep a record of individuals whose data it has erased so the individual may be contacted again by WFPS should WFPS come into possession of the individual's personal data at a later date.

If WFPS has made the data public, it shall take reasonable steps to inform other data controllers and data processors processing the personal data to erase the personal data, taking into account available technology and the cost of implementation.

If WFPS has given the personal data to any third parties it will tell those third parties that it has received a request to erase the personal data, unless this proves impossible or involves disproportionate effort. Those third parties should also rectify the personal data they hold - however WFPS will not be in a position to audit those third parties to ensure that the rectification has occurred.

8. Restriction of processing

The individual or a data controller at the individual's request, has the right to ask WFPS to restrict its processing of an individual's personal data where:

- The individual challenges the accuracy of the personal data;
- The processing is unlawful and the individual opposes its erasure;
- WFPS no longer needs the personal data for the purposes of the processing, but the personal data is required for the establishment, exercise or defence of legal claims; or
- The individual has objected to processing (on the grounds of a public interest or legitimate interest) pending the verification whether the legitimate grounds of WFPS override those of the individual.

If WFPS has given the personal data to any third parties it will tell those third parties that it has received a request to restrict the personal data, unless this proves impossible or involves disproportionate effort. Those third parties should also rectify the personal data they hold - however WFPS will not be in a position to audit those third parties to ensure that the rectification has occurred.

9. Data portability

The individual shall have the right to receive personal data concerning him or her, which he or she has provided to WFPS, in a structured, commonly used and machine-readable format and have the right to transmit those data to another data controller in circumstances where:

- The processing is based on the individual's consent or a contract; and
- The processing is carried out by automated means.

Where feasible, WFPS will send the personal data to a named third party on the individual's request.

10. Object to processing

The individual has the right to object to their personal data being processed based on a public interest or a legitimate interest. The individual will also be able to object to the profiling of their data based on a public interest or a legitimate interest.

WFPS shall cease processing unless it has compelling legitimate grounds to continue to process the personal data which override the individual's interests, rights and freedoms or for the establishment, exercise or defence of legal claims.

The individual has the right to object to their personal data for direct marketing.

11. Enforcement of rights

All requests regarding individual rights should be sent to the person whose details are listed in the Appendix.

WFPS shall act upon any subject access request, or any request relating to rectification, erasure, restriction, data portability or objection or automated decision making processes or profiling within one month of receipt of the request. WFPS may extend this period for two further months where necessary, taking into account the complexity and the number of requests.

Where WFPS considers that a request under this section is manifestly unfounded or excessive due to the request's repetitive nature WFPS may either refuse to act on the request or may charge a reasonable fee taking into account the administrative costs involved.

12. Automated decision making

WFPS will not subject individuals to decisions based on automated processing that produce a legal effect or a similarly significant effect on the individual, except where the automated decision:

- Is necessary for the entering into or performance of a contract between the data controller and the individual;
- Is authorised by law; or
- The individual has given their explicit consent.

WFPS will not carry out any automated decision-making or profiling using the personal data of a child.

13. Direct marketing

WFPS is subject to certain rules when marketing our clients and candidates. Individuals prior consent is required for electronic direct marketing. There is a limited exception for existing clients and candidates which allows us to send marketing texts and e-mails if we have obtained their contact details in the course of working finding services to that individual, WFPS are marketing similar products or services to individuals and WFPS gave that individual an opportunity to opt out of marketing when first collecting their details and in every subsequent message.

If an individual objects to direct marketing, it is essential that this is actioned in a timely manner and their details will be suppressed as soon as possible. WFPS can retain just enough information to ensure that marketing preferences are respected in the future.

14. Provision of candidate information following an audit request

In the event of a client audit request the following documents have been identified as requiring certain specific confidential information to be redacted.
